

Analyst Portfolio

★ Project Details

Project Name	Operation Career Pivot
Project Description	Build a website to host a portfolio of data analysis projects. Data analysis projects will use SQL and Python and include code snippets, documentation, visuals and writing samples.
Project Goals	<ul style="list-style-type: none">• Get more interview offers.• Get more experience doing actual business analysis work.• Get more comfortable with SQL and Python.• Have fun!
Requirements	<p>Me: Creator and Job Seeker</p> <ul style="list-style-type: none">• Website follows semantic best practices so that all users have an accessible experience and I can maintain the site alone.• Website is styled in a way that is consistent with my brand.• Analysis projects show a range of skills. <p>My primary users: Recruiters and Hiring Managers</p> <ul style="list-style-type: none">• Website is easy to navigate.• Website is styled in a consistent way so that I get a sense of the creator as a person.• Portfolio shows a range of skills, which indicates that the candidate learns quickly and can perform job duties with minimal training.
Deliverables	<ul style="list-style-type: none">• Functional, styled website• SQL analysis project<ul style="list-style-type: none">◦ code◦ documentation◦ visualizations◦ writing samples• Python analysis project<ul style="list-style-type: none">◦ code

	<ul style="list-style-type: none"> ◦ documentation ◦ visualizations ◦ writing samples
Project Team	<ul style="list-style-type: none"> • Drivers: • Approvers: • Contributors: • Informed Stakeholders:
Budget	<p>Budget is \$0.00</p> <ul style="list-style-type: none"> • Courses • Software • Web domain
Assumptions & Constraints	<ul style="list-style-type: none"> • Do I have the mental capacity? • Do I have the time? • Can I find enough free resources? • Will my computer be able to handle the workload?

Project Milestones & Schedule

 schedule is agile because this has to happen as soon as possible

 but it needs to have value so rushing the product is not an option

- Website live
- SQL project posted
- Python project posted
